Main Course

Bangladeshi Lamb Curry

Traditional Bangladeshi Curry (also famously known as staff curry) prepared with tender pieces of lamb chops on the bone using garlic, ginger, tomatoes, onions, coriander and green chillies. Although this dish is only medium hot it is very spicy, this is an improved recipe from last year.

Spice 1 Special Spicy Chicken or Prawn

A beautiful dish which has a fantastic range of flavours. Prepared using fresh green and red peppers, and red onions in a fine thick sauce. The dish itself is not hot but just be careful with the chillies. The strength of this dish can be made hotter to enhance the flavours and taste.

Garlic Chilli and Lemon Chicken

Chicken cooked in a sauce made from garlic and pickled Green Chillies and a hint of lemon, cooked using peices of Spice 1's finest chicken breast and garnished with fresh corriander to compliment a very tasty dish. The dish is quite hot, but again the we can adjust the strength of the dish to make it hotter if required.
